

Wall-Mounted Disinfection Cabinet

The Wall-Mounted Disinfection Cabinet is a highly efficient system that simplifies disinfection and greatly reduces the possibility of cross-contamination in your bathing and/or showering areas. A majority of long term care residents are incontinent requiring all surfaces and equipment to be disinfected after each resident bathing and/or showering. The unique mixing valve uses the exact dilution ratio of disinfectant solution for optimal performance against a wide variety of microorganisms and greatly reduces bacterial contamination. The lockable cabinet provides a secure place for disinfectants and cleaning supplies.

- ◆ **Made in the USA.** Manufactured in Sparta, TN from the highest quality components and materials.
- ◆ An **outstanding warranty** resulting in low cost of ownership (5 yrs. for external finishes and composite shell, 3 yrs. for all moving and stationary parts).
